REMAND TO THE EXAMINER

This Image File Wrapper (IFW) application was electronically received at the Board of Patent Appeals and Interferences on January 17, 2007. A review has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being remanded to the Examiner. The matter requiring attention is identified below.

EXAMINER'S ANSWER

An Examiner's Answer was mailed on July 28, 2006. The sections entitled "Evidence Relied Upon" and "Grounds For Rejection To Be Reviewed On Appeal" both cite the name of an inventor that does not correspond with either one

of the reference numbers identified. It is noted that the cited inventor "**Knapp**" does not correspond with the cited reference numbers **471685** or **6,235,685**.

EVIDENCE RELIED UPON

In the Evidence Relied Upon (Section 8), the reference identified as "**Knapp et al.**" is associated with a number identified as "**471685**" (see p. 3). The named inventor and the serial number do not correspond with one another.

Correction is required.

GROUND OF REJECTION TO BE REVIEWED ON APPEAL

In the Grounds of Rejection for Review (Section 9), the Examiner applies the rejection of Claim 48 under 35 USC 103(a) as being unpatentable over Verrari (2,933,293), Kercso et al., (6,132,685), and further in view of **Knapp (6,235,685)**. The named inventor and the serial number do not correspond with one another.

Correction is required.

CONCLUSION

Accordingly, it is

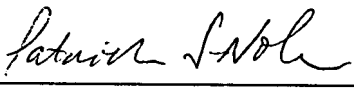

ORDERED that the application is remanded to the Examiner:

1) to issue a PTOL-90 correctly identifying the reference (in both the Evidence Relied Upon and Grounds of Rejection sections) intended to be used in the rejection of appealed claim 48; and
